PERFORMANCE ANALYSIS

Data-Driven Insights for Strategic Growth(Project)

Regional Performance

Profitability Analysis

Discount Strategies

By

Vishwajeet Baing

PROJECT OBJECTIVES

01

Identify Key Drivers

Analyze factors influencing profitability across product lines and regions

02

Assess Regional Performance

Evaluate sales distribution and revenue generation across key markets

03

Pricing Strategy Impact

Understand how discount strategies affect overall profitability and margins

DATA PREPARATION JOURNEY

Raw Data Challenges

- **Missing Values**

  Size, Units Sold, MRP columns had gaps

- **Inconsistent Names**

  "Hyd" vs "Hyderabad", "Bengaluru" vs "Bangalore"

- **Unstructured Format**

  Data required standardization and cleaning

What I did for Clean Data Solutions

- **Missing Value Treatment**

  Size → Mode | Units Sold → Median (by Product Line)

- **Feature Engineering**

  Created **margin_type** column for profit categorization

- **Data Normalization**

  Standardized regional names for consistency

KEY PERFORMANCE INDICATORS

Business Analytics Dashboard

Total Revenue

₹687184.28

All regions combined

Avg Profit

1376.01

Per order margin

Order Distribution

50%	49%
Retail	Online
